

The table below shows the prices for each individual cabinet box, available from each of my manufacturers. If you have the list of cabinets that you need, you can use this chart to get an idea of how much your kitchen will cost from each of my manufacturers. This is not a complete list and is only designed to give you an idea of the cost from each manufacturer as well as the difference in costs between manufacturers. To give a better comparison between lines, the door style is a full overlay, shaker style in maple or birch with white paint. A blank space instead of a price means that item is not available from that manufacturer.
